University Munich

Dear Colleagues and Friends,

As course directors and local hosts, it is our pleasure and privilege to welcome you to the **6th Mayo Clinic Chang Gung Symposium in RECONSTRUCTIVE SURGERY**, which will be held in Munich Germany October 19-22, 2016.

This Symposium has been organized as a collaboration between Mayo Clinic & Chang Gung Memorial Hospital since 2009 and it has become one of the most prestigious and scientifically invigorating meetings in the field of reconstructive surgery. Until now, this Symposium has been held in the USA and Taiwan.

This is the first time the Mayo Clinic Chang Gung Symposium will be held in Europe. Munich is a cosmopolitan city with an exceptional infrastructure. It offers its guests a unique atmosphere and well-known welcoming hospitality. Based on an excellent transportation system the city can be easily reached from anywhere. In 2010, Monocle ranked Munich as the world's most livable city.

The scientific program will focus on new developments in plastic, reconstructive, craniofacial and aesthetic surgery especially in the multidisciplinary setting of regenerative medicine from diagnosis to state-of-the-art of less invasive treatment approaches. This meeting will offer a great faculty from the fields of reconstructive surgery, craniofacial surgery and for the first time keynote lectures in aesthetic topics giving the platform for scientific exchange and discussion. We would like to present the way to achieve excellence in function and aesthetics through reconstructive surgery.

It is well known that this Symposium offers a great opportunity for all of us to update our knowledge, meet up with friends and colleagues, old and new, and enjoy each other's company. This is the best occasion to prepare the soil for fruitful scientific co-operation in the field of plastic, reconstructive and aesthetic surgery.

Apart from the exciting scientific schedule, you will certainly have the opportunity to get a taste of Munich's artistic and cultural richness and exciting concerts, impressive exhibitions, culinary delights, sports events and excellent shopping. There is more to Munich than meets the eye!

We look forward to spending some inspiring days with you.

Milomir Ninkovic MD, PhD

Samir Mardini, MD

Fu-Chan Wei, MD

Interactive Video Sessions:

Videos of surgical procedures including flap dissections as well as reconstructions will be presented by expert faculty and discussed in small group settings.

Case Discussions

Attendees will have the opportunity to bring their own cases to discuss with experts in the field of reconstructive, craniofacial and aesthetic surgery.
