

RRRS
ICELAND
8-9 MAY 2014

HEY! PSST! – YES YOU!

Have you forgotten to register for RRSIceland2014?

Well, the early registration fee ends on **March 6, 2014.**
Register today!

Go to www.rrsiceland2014.is and register if you want to know everything about risk reducing strategies for patients with BRCA mutation carriers and individuals at high risk of developing breast cancer in addition to meeting some interesting people in a unique environment.

It'll be great and I hope to see you all there!

Kristján Skúli Ásgeirsson

President of the organising committee for RRS Iceland 2014

MORE INFORMATION

WHAT IS IT?

An intensive 2 day conference on **risk-reducing strategies (RRS)** for BRCA mutation carriers and high risk patients, with particular focus on surgical aspects.

Talks will be given by invited Nordic & International speakers. The focus of the talks will be on genetics, risk assessment and psychosocial aspects of RRS

Live operating will be integrated into the program, showing techniques of:

1. Nipple sparing mastectomy
2. Direct to implant and ADM reconstruction
3. Revisional surgery after previous implant reconstruction, including fat grafting
4. Nipple reconstruction techniques including nipple/areola tattooing

WHERE IS IT?

Held in **Reykjavík, Iceland** at the world-class **Concert Hall & Conference Centre - Harpa** which offers state of the art technology & facilities in a magnificent setting with an unforgettable view.

WHY GO?

Because it is the perfect excuse for a long weekend in Reykjavík that would include a learning experience on RRS for breast cancer.
